

$$F_{33}^n$$

At meetings of cells of the Rumanian Workers Party members are told that war is inevitable. They are informed that such a war will result from the "aggressive tactics of the American bloc". Party members are reassured, however, that victory is inevitable because of Soviet military and technical genius; it is no longer necessary to fear "the Western dogs". The membership is told to "ready yourselves and do not be surprised if the imperialists strike before too long".
